

Leaders in live tracking

TracTrac[®] CLUB

Get all the benefits of the TracTrac live tracking technology for permanent use at daily activities like trainings, small weekday events and youth activities.

The tracking opens up the activities of the club in a whole new way. Parents, friends and fans can **follow and share the activities live** from the comfort of the club house or from home.

Coaches get a superior tool for **analysis and qualified feedback and dialogue** with the sailors.

A complete overview of the whereabouts of the sailors at all times and the alarm button on the device **add crucial safety** to your activities.

HOW DOES IT WORK?

- **Set up** your tracking activity in the Event Manager.
- **Turn on** the trackers and hand them out
- **Publish** the tracking for the world to see by one click of a button
- **Study**, view and analyze live via mobile, tablet or laptop.
- **Perform** your post-race analysis when back on shore.

It is that easy!

WHAT IS INCLUDED?

The **tracking units** are ready to go and come with sim cards and data included. You can track as often as you want – even on training camps abroad – without worrying about hidden extra costs.

The **Event Manager** is your online tool for quick and easy setup of the tracking.

The club's own **Club page on traccrac.com** displays all the tracked activities for anyone to load and watch at any time live and in replay.

The **TracTrac web viewer** for viewing the tracking has a number of advanced functions for viewing and analyzing the tracks live and replay.

The **app for smartphone and tablets** (iOS and Android) gives you the freedom to watch the tracking wherever you are – even on the water.
